## EFFORTS MADE TO AVERT STRIKE

**Heads of "Big 5" Will Meet Railroad Labor Board Today.**

Chicago, October 19.—Preparations for the various moves through which it is hoped the threatened rail strike will be averted were completed today, and tomorrow the peace efforts will be in full swing.

Tonight heads of the unions and of the carriers were silently alert with—figuratively speaking—one eye on the conference tomorrow between the "Big Five" rail union leaders and the railroad labor board, and the other meetings of officials of eleven unions, which have not yet joined the conductors, engineers, trainmen, firemen and switchmen in a strike order, for both sides were agreed that out of these conferences would come the final decision as to whether a general walkout of rail employees would materialize.

In the conference with the labor board rested the possibility the "Big Five" being persuaded to cancel their order for a walkout. While in the meetings of the eleven unions, which actually started today was to be decided whether these organizations, holding the balance of manpower through numbering three-fourths of the nearly 2,000,000 rail workers in their membership, would join the "Big Five" if they walked out October 30, as planned.

Warren S. Stone, president of the Brotherhood of Locomotive Engineers; W. G. Lee, president of the Brotherhood of Railroad Trainmen; W. S. Carter, president of the Brotherhood of Locomotive Firemen and Engineers; S. T. Cashen, president of the Switchmen's Union of North America, and E. P. Curtis, vice president of the Railroad Conductors, left Cleveland tonight for Chicago to meet with the labor board at the latter's request. L. E. Sheppard, president of the conductors' organization, also is expected to be here tomorrow.

### THE Y. M. C. A. IN MISSOURI

Twenty-five buildings and one state camp (at Hollister) which are valued at \$3,000,000, have been entrusted to and are now operated by the associations of the state.

The work is carried on by over 2,000 committeemen and 102 secretaries. Every class is represented in the membership—men, boys, white and colored—men in commercial pursuits, on railways, in high schools and colleges, in mines, factories and on farms.

The total membership in Missouri associations is now more than 20,000 and more than double this number of men and boys are being reached in Missouri through the services of the association. 3,627 were enrolled in Bible training classes, 147,300 attended religious meetings and 1,024 made definite decisions for Christ. More than 8,000 are enrolled in gymnasium classes. Realizing the value of the country boy and that two-thirds of the leadership is recruited from this field, the county work department has been adding during the past year. Over 4,000 students are enrolled in the educational classes.
